MyDocDesk: Intelligent Medical & Dental Reception

24/7 AI Voice & WhatsApp Triage • Structured Pre-Visit Case Notes • Smart Schedule Protection

MyDocDesk
INTELLIGENT MEDICAL RECEPTION

Built for Cyprus & Greece

GeSY doctors, private specialists & dental clinics

mydocdesk.com • Sister platform to myvacai.com

Why Solo & Specialist Clinics Lose Hours and Revenue Every Day

CALLS PER DAY

40–100+

Constant phone & WhatsApp interruptions while the doctor is examining a patient or the dentist is chairside with gloves on.

LOST PER MISSED CALL

€60–€500+

A single missed private consultation, dermatology procedure, crown repair, or implant inquiry goes straight to the next clinic that answers.

GeSY ADMIN NOISE

30–40%

Repeat GeSY prescriptions and specialist referral requests clog up the phone line and consume valuable in-person exam slots.

Meet Anastasia — Answers Every Call & WhatsApp in Under 1 Second

Normal Phone Calls + WhatsApp + SMS

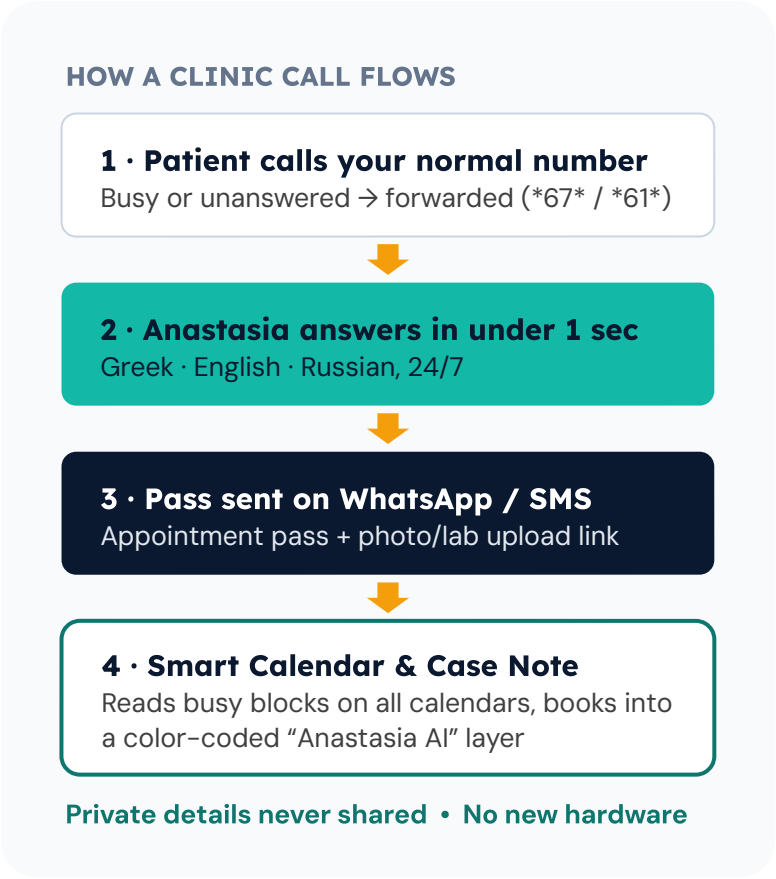

Works with your existing Cyta, Epic, or Cablenet clinic landline or mobile via simple "Forward When Busy / Unanswered" (*67* / *61*) — no new hardware or number change required.

Trilingual Fluency: Greek · English · Russian

Speaks natural Cypriot/Standard Greek, English, and Russian over normal phone lines and transcribes WhatsApp voice notes automatically.

Instant WhatsApp / SMS Handoff

Sends the appointment pass and optional photo/lab upload link while still on the call (or a standard SMS for landline/non-WhatsApp patients).

3-Tier Clinical & Dental Priority Triage (P1 / P2 / P3)

Protects Same-Day Emergency Capacity While Filtering Out Routine Admin

YOUR PROTECTED DAILY SCHEDULE

12:30 PM	Emergency buffer (P1 only)
5:00 PM	Emergency buffer (P1 only)
End of day	5-minute GeSY batch queue (P3)
Off-peak	Hygiene & scaling hours (P3)

P1 — Priority 1 — Urgent Same-Day

High pediatric fever (>39°C), acute otalgia, broken front crown, or severe toothache → Anastasia screens red flags and unlocks your protected 12:30 PM / 5:00 PM Emergency Buffer Slot.

P2 — Priority 2 — Standard 24–48h + Photo Intake

Spreading skin rash, lab review, lost filling, or implant consult → Anastasia requests a smartphone photo or PDF on WhatsApp and books the right slot duration (15m / 30m / 45m / 60m).

P3 — Priority 3 — Routine & GeSY Async Queue

Repeat GeSY prescriptions, specialist referrals, or dental scaling & hygiene every 6 months → routed to your 5-Minute End-of-Day GeSY Batch Queue or to off-peak hygiene hours, never a prime exam slot.

Every Calendar Event Arrives With a 3-Bullet Case Note

WhatsApp · P2 GeSY repeat script — Reply A / B / C / D
[A] Approve & Send [B] Book Morning Slot
[C] Request Photo/Labs [D] Doctor Call Back

Dedicated “Anastasia AI” Calendar Layer

Reads busy blocks across personal, hospital-rounds and clinic calendars (no private details shared) and books onto a color-coded sub-calendar, so AI-booked vs. manual slots stand out.

3-Bullet Clinical & Dental Summary

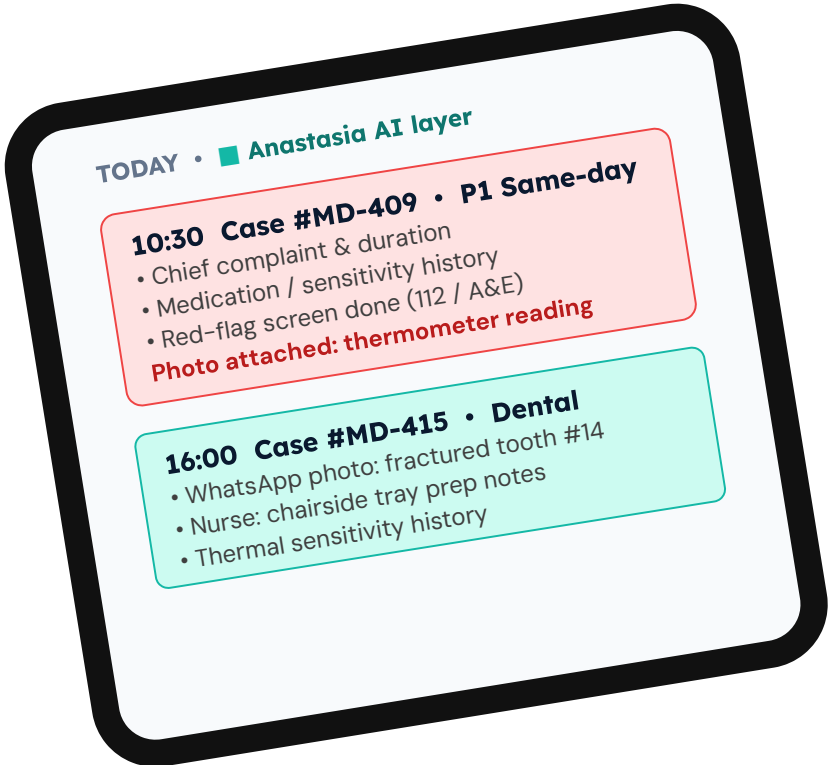

Chief complaint & duration, medication/sensitivity history, and a completed red-flag screen (112 / A&E auto-deflection for chest pain or breathing distress).

Zero-App “Reply A / B / C / D” Approval

Priority 2/3 bookings and GeSY admin (repeat prescriptions, referrals, lab reviews) arrive as a WhatsApp digest the doctor answers in 1 second from the lock screen.

Pre-Attached Photos & Nurse Tray Prep

Patient WhatsApp photos (rash, thermometer, fractured tooth #14) and chairside tray-prep notes are linked directly to the event.

Tailored Triage Rules Across Medical & Dental Specialties

FEATURED

Dentistry & Implantology

General, Cosmetic & Implant Dentistry

Hands-free answering while chairside with gloves on; 30m emergency toothache/crown buffer slots, WhatsApp tooth photo intake, and variable 30m/45m/60m block booking.

Pediatrics & GeSY Personal Doctors

Primary Care & Pediatric Clinics

Fever & red-flag triage, working-parent WhatsApp handoff, and automatic deflection of daily GeSY repeat prescriptions & referrals.

Dermatology & Aesthetic Clinics

Clinical & Cosmetic Dermatology

High-resolution WhatsApp photo intake before the visit, so urgent rashes are seen fast and cosmetic/laser slots stay organized.

Cardiology & Internal Medicine

Cardiology & Internal Medicine

Pre-visit BP/ECG log collection and structured chronic GeSY medication renewal batching.

“Come for the Receptionist, Stay for the Patient Network”

How Your AI Calendar Unlocks Phase 2 Patient Discovery Across Cyprus

PHASE 2

The Live Cyprus Doctor & Dentist Finder App

Once clinics use MyDocDesk as their real-time calendar source of truth, patients across Nicosia, Limassol, Larnaca, and Paphos can search by symptom or specialty and book verified open slots directly—with **zero double-bookings** and pre-triaged priority rules still enforced.

FOUNDING 20

Founding Clinic Network Advantage

The first 20 Founding Clinics in Cyprus lock in **permanent priority placement** in specialty search results, automatic cross-referral intake from participating GeSY Personal Doctors, and **€0 marketplace commission** on patient bookings.

MyDocDesk

Start Your 14-Day Free Clinic Pilot in 5 Minutes

FULL-TIME FRONT-DESK SECRETARY

€1,400+ / month

8 hours/day, 1 call at a time, holidays & sick leave.

vs

MYDOCDESK FOUNDING DOCTOR RATE

€99 / month

Locked in for the first 20 clinics (Standard: €149/month) — 24/7 coverage, unlimited simultaneous calls & WhatsApp triage, 14-Day Free Pilot.

Zero-Disruption Setup: keep your existing Cyta/Epic/Cablenet clinic number (activate *67* / *61* forwarding on busy/unanswered) and sync with your existing Google, Apple, or Outlook Calendar in 5 minutes.
